AN ORDINANCE OF THE CITY OF GALLATIN, SUMNER COUNTY, TENNESSEE, REZONING AN APPROXIMATELY 0.73 +/- ACRE PARCEL, FROM THE A-AGRICULTURAL RESIDENTIAL ZONING DISTRICT TO THE R15 MEDIUM DENSITY RESIDENTIAL ZONING DISTRICT, LOCATED EAST OF HIGHWAY 109 AND SOUTH OF ODOMS BEND ROAD; AUTHORIZING THE REVISION TO BE INDICATED ON THE OFFICIAL ZONING ATLAS; REPEALING CONFLICTING ORDINANCES; PROVIDING FOR SEVERABILITY, AND PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the owner of property has submitted a complete application to rezone a 0.73 +/- acre parcel, located in the Planning Region of City of Gallatin, Tennessee; and

WHEREAS, the proposed zoning map amendment conforms to the general plan of the area including the established Suburban Neighborhood Emerging Character Area and that the public necessity, convenience, and the general welfare, will be served by approving the proposed amendment; and

WHEREAS, the property proposed for rezoning will have adequate public utilities, infrastructure and private or municipal services necessary to serve the existing and proposed development and population permitted by the requested zoning or such necessary services and facilities will be provided upon development of the property; and

WHEREAS, the proposed rezoning will provide opportunities for single-family residential development on the property consistent with housing on adjacent properties and will provide for development to compliment the scale, setbacks and style of existing adjacent homes; and

WHEREAS, the proposed rezoning will be compatible with surrounding environment and will protect the public health, safety and welfare and will not be injurious to other property or improvements in the area in which the property is located; and

WHEREAS, the Gallatin Municipal-Regional Planning Commission reviewed and voted to recommend denial of Ordinance O2004-15 at the March 23, 2020 Planning Commission meeting; and

WHEREAS, a public hearing was held following public notice as prescribed by the Gallatin Zoning Ordinance and §13-7-203, T.C.A.; and

WHEREAS, the City Council has approved by majority vote of the members present the rezoning request of the described property; and

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GALLATIN, SUMNER COUNTY, TENNESSEE AS FOLLOWS:

Section 1. The City Council of the City of Gallatin does hereby approve rezoning a 0.73 +/- acre parcel from the A- Agricultural Residential District to the R15 – Medium Density Residential District as described in Exhibits ‘A’ and ‘B.’

Section 2. The City Council of the City of Gallatin does hereby approve, authorize and direct the revision of the City’s Official Zoning Atlas to show the classification for the area as hereby rezoned.

Section 3. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed to the extent of such conflict.

Section 4. If any provision of this ordinance or the application thereof to any person or circumstance is held invalid, the invalidity shall not affect other provision or applications of this ordinance which can be given without the invalid provision or application, and to this end the provisions of this ordinance are declared severable.

Section 5. This ordinance shall become effective immediately upon adoption.

**ORDINANCE TO PROVIDE REVENUE FOR THE CITY OF GALLATIN
TENNESSEE FOR MUNICIPAL PURPOSES FOR THE 2020 TAX YEAR AND THE
2021 FISCAL YEAR**

BE IT ORDAINED by the City of Gallatin, Tennessee, that:

SECTION I. PROPERTY TAX:

A. All property, real, personal or mixed within the corporate limits of said City shall be and is hereby assessed for taxation for municipal purposes for the tax year 2020, except as is exempt from taxation by the Constitution and the laws of the State of Tennessee.

B. The levy be and is hereby made:

(1) to contribute to the general current expenses of said municipality that are paid from the General Fund; and

(2) to provide an amount, totaling \$2,079,050 to contribute to the retiring of the current year's principal and interest obligations; a tax of eighty and one one-hundredth cents (\$0.8001) per every one hundred dollars (\$100.00) of taxable property.

C. All collections of property taxes from levies of past years be collected entirely in, and become revenue of the General Fund and that any expenses incurred in collecting such delinquent taxes be entirely expenses of the General Fund.

D. The Tax Assessor for Sumner County, Tennessee, is hereby authorized to assess all the property lying within the Corporate Limits of the City of Gallatin, Tennessee, and the assessment is hereby adopted as the assessed or taxable value of said property for municipal purposes for the City of Gallatin, Tennessee, upon which shall be levied the tax rate as provided in this ordinance.

SECTION II. BUSINESS TAX: The privilege tax levied by the General Assembly of the State of Tennessee known as the "Business Tax Act" and as amended, be and the same is hereby levied for municipal purposes for the City of Gallatin, Tennessee, for the year 2020 and all arts, trades, callings, or occupations created and declared to be a privilege within the City of Gallatin, and for their exercises within the City of Gallatin, the same taxes are hereby levied and shall be collected for the municipal purposes as are now levied and collected for State purposes under and by virtue of said Act of the General Assembly of the State of Tennessee, as amended.

SECTION III. IN-LIEU TAX: Pursuant to, T.C.A. § 7-34-115, payments in lieu of *ad valorem* taxes shall be paid by municipal utility systems to the municipality in an amount not to exceed the amount of taxes payable on privately owned property of similar nature.

SECTION IV. EFFECTIVE DATE: All laws and ordinances in conflict with this ordinance, be and the same are repealed, and this ordinance shall be effective from and after its passage, the public welfare requiring it.

Notes:

**ORDINANCE OF THE CITY OF GALLATIN, TENNESSEE,
ADOPTING THE ANNUAL BUDGET FOR THE FISCAL YEAR BEGINNING
JULY 1, 2020 THROUGH JUNE 30, 2021.**

- Whereas, *Tennessee Code Annotated* Title 9 Chapter 1 Section 116 requires that all funds of the State of Tennessee and all its political subdivisions shall first be appropriated before being expended and that only funds that are available shall be appropriated; and
- Whereas, the Municipal Budget Law of 1982 requires that the governing body of each municipality adopt and operate under an annual budget ordinance presenting a financial plan with at least the information required by that state statute, that no municipality may expend any moneys regardless of the source except in accordance with a budget ordinance and that the governing body shall not make any appropriation in excess of estimated available funds; and
- Whereas, the governing body has published the annual operating budget and budgetary comparisons of the proposed budget with the prior year (actual) and the current year (estimated) in a newspaper of general circulation not less than ten (10) days prior to the meeting where the governing body will consider final passage of the budget.

NOW THEREFORE BE IT ORDAINED BY THE CITY OF GALLATIN, TENNESSEE AS FOLLOWS:

- SECTION 1: That the governing body projects anticipated revenues from all sources and appropriates planned expenditures for each department, board, office or other agency of the municipality, herein presented together with the actual annual receipts and expenditures of the last preceding fiscal year and the estimated annual expenditures for the current fiscal year, and from those revenues and unexpended and unencumbered funds as follows for the fiscal year, and including the projected ending balances for the budget year, the actual ending balances for the most recent ended fiscal year and the estimated ending balances for the current fiscal years:

SECTION 2. At the end of the current fiscal year the governing body estimates balances as follows:

Fund	Estimated Fund Balance as of 30-Jun-20
General Fund	\$ 11,662,254
Special Revenue Fund	\$ 2,663,017
Stormwater Fund	\$ 155,510
IDB/HEHFB Fund	\$ 108,514
Environmental Serv Fund	\$ 671,238
Drug Fund	\$ 79,974
Water/Sewer Fund	\$ 13,508,620
Gas Fund	\$ 7,861,731

SECTION 3. That the governing body herein certifies that the condition of its sinking funds, if applicable, are compliant pursuant to its bond covenants, and recognizes that the municipality has bonded and other indebtedness as follows:

Bonded or Other Indebtedness	Debt Authorized and Unissued	Principal Outstanding at June 30, 2020	FY 2021 Principal Payment	FY 2021 Interest Payment
Bonds				
2014 GO Refunding & Imp		\$ 10,365,000	\$ 910,000	\$ 339,850
2016 GO Improvement		\$ 9,185,000	\$ 485,000	\$ 344,200
2011 W/S Rev Ref & Imp		\$ 6,795,000	\$ 430,000	\$ 209,898
2014 W/S Rev Ref & Imp		\$ 3,235,000	\$ 270,000	\$ 123,000
2015 W/S Rev Ref & Imp		\$ 20,420,000	\$ 1,125,000	\$ 877,188
Capital Lease				
EDA Vehicle		\$ 10,530	\$ 7,020	\$ 1,763

SECTION 4. During the coming fiscal year the governing body has pending and planned capital projects with proposed funding as follows:

Proposed Capital Projects	Proposed Amount Financed by Appropriations	Proposed Amount Financed by Debt
Road projects	\$ 1,770,000.00	
Fire engine	\$ 497,000.00	
Police vehicles	\$ 435,000.00	
Stormwater drainage projects	\$ 255,000.00	
Stormwater vehicles/equipment	\$ 130,000.00	
Environmental services vehicles	\$ 150,000.00	

SECTION 5. No appropriation listed above may be exceeded without an amendment of the budget ordinance as required by the Municipal Budget Law of 1982 Tenn. Code Ann. Sec. 6-56-208. In addition, no appropriation may be made in excess of available funds except to provide for an actual emergency threatening the health, property or lives of the inhabitants of the municipality and declared by a two-thirds (2/3) vote of at least a quorum of the governing body in accord with Tenn. Code Ann. Sec. 6-56-205.

SECTION 6. Money may be transferred from one appropriation to another in the same fund only by appropriate ordinance by the governing body, subject to such limitations and procedures as it may describe as allowed by Tenn. Code Ann. Sec. 6-56-209.

SECTION 7. A detailed financial plan will be attached to this budget and become part of this budget ordinance. In addition, the published operating budget and budgetary comparisons shown by fund with beginning and ending fund balances and the number of full time equivalent employees

required by Tenn. Code Ann. Sec. 6-56-206 will be attached.

SECTION 8. This annual operating and capital budget ordinance and supporting documents shall be submitted to the Comptroller of the Treasury or the Comptroller's Designee for approval if the City has debt issued pursuant to Title 9, Chapter 21 of the Tennessee Code Annotated within fifteen (15) days of its adoption. This budget shall not become the official budget for the fiscal year until such budget is approved by the Comptroller of the Treasury or the Comptroller's Designee in accordance with Title 9, Chapter 21 of the Tennessee Code Annotated (the "Statutes"). If the Comptroller of the Treasury or the Comptroller's Designee determines that the budget does not comply with the Statutes, the Governing Body shall adjust its estimates or make additional tax levies sufficient to comply with the Statutes or as directed by the Comptroller of the Treasury or the Comptroller's Designee. If the City does not have such debt outstanding, it will file this annual operating and capital budget ordinance and supporting documents with the Comptroller of the Treasury or the Comptroller's Designee.

SECTION 9. If for any reason a budget ordinance is not adopted prior to the beginning of the next fiscal year, the appropriations in this budget ordinance shall become the appropriations for the next fiscal year excluding capital until the adoption of the new budget ordinance in accordance with Tenn. Code Ann. Sec. 6-56-210, provided sufficient revenues are being collected to support the continuing appropriations. Approval of the Director of the Office of State and Local Finance in the Comptroller of the Treasury for a continuation budget will be requested if any indebtedness is outstanding.

SECTION 10. All unencumbered balances of appropriations remaining at the end of the fiscal year shall lapse and revert to the respective fund balances.

SECTION 11. This ordinance shall take effect on July 1, 2020, the public welfare requiring it.

WATER AND SEWER SERVICE CONTRACT

This Water and Sewer Service Contract (this “Contract”) is made and entered on this _____ day of _____, 2020, by and between the City of Gallatin, a Tennessee Municipal Corporation located in Sumner County, Tennessee and hereinafter referred to as “Gallatin” and Woolhawk LLC, a Delaware limited liability company, hereinafter referred to as “the Customer.”

Witnesseth:

Whereas, the Customer has the right to purchase or otherwise acquire all or part of an interest in undeveloped real property located in the City of Gallatin in Sumner County, Tennessee, as more fully described on Exhibit “A” attached hereto, and hereinafter referred to as the “Property”;

Whereas, if the subject Property is acquired by the Customer, then the Customer has plans to establish on the Property a multi-year large-scale project which may include multiple projects extending over a period of years with uses of one or more data centers, and/or other facilities used to house, and in which are operated, maintained and replaced from time to time, computer systems and associated components, such as telecommunications and storage systems, cooling systems, power supplies and systems for managing property performance (including generators), and equipment used for the transformation, transmission, distribution or management of electricity (including substations), internet-related equipment, data communications connections, environmental controls and security devices, structures and site features, as well as certain

accessory uses or buildings located on the Property and other related or associated uses, buildings or structures such as (but not limited to) utility buildings, structures and appurtenants located on, adjacent or near the Property that are reasonably related to the data center (collectively, as the same may actually be constructed, the “Project”); and

Whereas, Gallatin believes that such a project or development will be beneficial for Gallatin and its citizens, and is in the public interest;

Whereas, the Customer anticipates that the Project will require a long-term commitment of the Customer’s resources, and will require the careful integration between public capital facilities and the development of the Property to be successful, both for the Customer and for Gallatin;

Whereas, development of the Project on the Property will involve a substantial commitment of private capital by the Customer, which commitment the Customer is unwilling to risk without certain assurances from Gallatin that adequate water and sewer service, provided at appropriate rates, will be available to the Project;

Whereas, Gallatin is currently operating a potable water system (together with any repairs to or replacements of the same, referred to as the “Water System”) and a municipal sanitary sewer system (together with any repairs to or updates to or replacement thereof, including without limitation the waste water treatment plant, referred to as the “Sewer System”). The Water System and the Sewer System each have existing capacity which is not being used or reserved for use by others and is substantially in excess of existing and projected demands for water service from the Water System and sewer service from the Sewer System;

Whereas, the Customer has requested Gallatin to make certain commitments concerning the availability of water and sewer service for the Project, to which Gallatin has agreed; and

Whereas, Gallatin is willing and able to serve the Project upon the terms, provisions and conditions hereinafter set out, all of which are acceptable to the Customer.

Now, therefore, for and in consideration of the mutual covenants of the parties, and other good and valuable consideration, the receipt and legal sufficiency of which is hereby acknowledged, Gallatin and the Customer (the “parties”) do hereby agree as follows:

1. The recitals stated above are adopted and made a part of this Contract as if stated verbatim herein.

2. Gallatin represents and warrants to each of the following, as of _____, 2020:

(a) Gallatin possesses the existing legal right under a valid water treatment facility permit issued to Gallatin by the Tennessee Department of Environment and Conservation (“TDEC”) and a valid intake permit from TDEC to take in up to 16,000,000 gallons per day of water for treatment as potable water (the “Permitted Intake”) and that its current water treatment plant has the design capacity to treat and transport up to 16,000,000 gallons per day. Gallatin has no knowledge of any fact, or pending law, rule, regulation, order or directive which would or might cause a reduction in its Permitted Intake. Further, Gallatin has no knowledge of any facts or circumstances that would cause TDEC to reduce Gallatin’s Permitted Intake.

(b) Gallatin has the existing legal right under a valid National Pollutant Discharge Elimination System permit (NPDES Permit No. TN0020141) issued to Gallatin by TDEC to discharge treated wastewater from a wastewater treatment facility at the Cumberland River mile 237.9 (the “Permitted Discharge”) and that its current treatment plant has the organic design capacity to discharge up to 12,500,000 gallons per day and a hydraulic design capacity up to 30,000,000 gallons per day. The Sewer System has the capacity and capability to receive industrial

discharges of the type generated by an evaporative cooling system used at the Project or facilities similar to the Project and other substantially similar industrial discharges. Gallatin has no knowledge of any fact, or pending law, rule, regulation, order or directive which would or might cause a reduction in the capacities committed for use by the Project in Paragraph 11 of this Contract. Further, Gallatin does not know of any facts or circumstances that would cause TDEC to reduce the volume, except to the extent same will not cause a reduction in the capacities committed for use by the Project in Paragraph 11 of this Contract, or significantly change the limits on the quality of Gallatin's Permitted Discharge established in NPDES Permit No. TN0020141.

(c) The Water System has a current operating capacity that exceeds the total of all current and projected demand for water supply service in Gallatin by 7,000,000 gallons per day. The Sewer System has a current operating capacity that exceeds the total of all current and projected demand for sewer services in Gallatin by 7,000,000 gallons per day. Gallatin has the right to allocate to the Project a portion of the excess capacities of the Water System and Sewer System.

(d) Gallatin, through its department, Gallatin Public Utilities, has reviewed sufficient information about the Customer's proposed water and sewer use and the nature and volume of the Customer's proposed discharge to the Sewer System, and has made the determination that, under current law(s), the Customer's discharge (a) does not fall under the Industrial Pretreatment Program of Gallatin, (b) will not require a discharge permit, and (c) does not cause the Customer to become a "Significant Industrial User" under the applicable rules and regulations of the Tennessee Department of Environment and Conservation. Accordingly, no pretreatment of any discharge from the Project will be required. Gallatin has no knowledge of any fact, circumstance

or pending law, rule, regulation, order or directive which would or might cause a reduction in its Permitted Discharge.

3. Subject to the Customer's compliance with the Gallatin Municipal Code, Chapter 17, Articles I-III (the "Regulations"), Gallatin hereby agrees to and will provide water and sewer service to the Project, subject to the provisions of Paragraph 5 of this Contract, and agrees to and will permit the Customer to connect onto Gallatin's water main or mains and to serve the Project and to connect onto Gallatin's sewer main or mains. Gallatin will install the water mains, valves, fittings, pipes, appurtenances, and other water system improvements for water service (hereinafter the "Water System Improvements") to serve the Project and to connect onto Gallatin's sewer main or mains and install the sewer mains, tanks, pumps, electrical connections, lines and other Sewer System improvements (hereinafter the "Sewer System Improvements") for sewer service to the Project, all as described herein and generally depicted on Exhibit "H" attached hereto. Gallatin's obligation to provide water service does not include an obligation to provide an unlimited demand for water for irrigation purposes when such demand exceeds Gallatin's ability to provide such water for irrigation purposes.

4. At its own expense and at no cost and expense to Gallatin, the Customer shall pay all costs incurred to install, lay and construct all Water System Improvements and all Sewer System Improvements, and other equipment and appurtenances specified herein to be installed to serve the Project including all labor and material. The construction and installation of the Water System Improvements and Sewer System Improvements shall be in strict accordance with the plans, specifications and requirements as determined by Gallatin and, to the extent required, as required by the State of Tennessee. All Water System Improvements and Sewer System Improvements shall be located as determined by Gallatin.

5. With respect to the Project, the Customer agrees to pay the following as a condition of Gallatin agreeing to provide water service and sewer service to the Project. It is understood and agreed by the Customer that all costs for Water System Improvements and Sewer System Improvements for the Project required to be paid by the Customer hereunder will be paid in advance of any work being performed, and that the costs as set forth in this Paragraph 5 are estimates based upon information available at the time that the cost estimates were developed. The amount paid to Gallatin in advance by the Customer is the "Construction Payment". The Customer agrees that in the event that the cost estimates are below the actual costs for the Water System Improvements and Sewer System Improvements for the Project, then upon demand the Customer will pay the difference between the estimated cost and the actual cost for the items set forth in this Paragraph 5, subject to the Customer's review and approval, and the right of the Customer to modify the scope of Project as may be desirable to reduce the costs of the Water System Improvements and the Sewer System Improvements. In the event that the actual cost is less than the estimates as set forth herein, then Gallatin will refund to the Customer the difference between the actual cost and the previously paid estimated costs. All work on the Water System Improvements and Sewer System Improvements for the Project will be publicly bid and the bid price by the accepted lowest and best bidder will determine the actual cost that the Customer will be required to pay.

(A) Potable Water Line. The Customer agrees to pay Gallatin the sum of \$967,000.00 for the potable water line necessary to serve the Project, as set forth on Exhibit "B" attached hereto.

(B) Temporary Pump Station. The Improvements (as defined in Paragraph 19) shall include an existing well with a temporary wastewater pump station to serve Tier I Sewer Capacities set forth in Paragraph 11 of this Contract at no additional cost.

(C) Potable Water Storage Tank. The Customer agrees to pay Gallatin the sum of \$2,050,000.00 for the potable water storage tank necessary to serve the Project, as set forth on Exhibit “C” attached hereto.

(D) Wastewater Pump Station. The Customer agrees to pay Gallatin the sum of \$2,178,000.00 for the wastewater pump station necessary to serve the Project, as set forth on Exhibit “D” attached hereto.

(E) Wastewater Force Main. The Customer agrees to pay Gallatin the sum of \$706,525.00 for the wastewater force main necessary to serve the Project, as set forth on Exhibit “E” attached hereto.

(F) Wastewater Gravity Sewer. The Customer agrees to pay Gallatin the sum of \$1,259,900.00 for the wastewater gravity sewer necessary to serve the Project, as set forth on Exhibit “F” attached hereto.

(G) Engineering Design. The Customer agrees to pay Gallatin the sum of \$447,500.00 for the engineering design for the Water System Improvements and Sewer System Improvements necessary to serve the Project.

(H) Engineering During Construction. The Customer agrees to pay Gallatin the sum of \$160,000.00 for the engineering cost incurred during the construction of the Water System Improvements and Sewer System Improvements necessary to serve the Project.

(I) Project Inspection. The Customer agrees to pay Gallatin the sum of \$270,000.00 for the project inspection costs incurred during the construction of the Water System Improvements and Sewer System Improvements that are necessary to serve the Project.

(J) Permits and Environmental Studies. The Customer agrees to pay Gallatin the sum of \$28,000.00 for the permits and environmental studies that are necessary for the Water System Improvements and Sewer System Improvements for the Project.

(K) Surveying. The Customer agrees to pay Gallatin the sum of \$12,000.00 for the surveying that will be necessary for the Water System Improvements and Sewer System Improvements to serve the Project.

(L) Project Contingency. The Customer agrees to pay Gallatin the sum of \$321,075.00 as the anticipated project contingency for the Water System Improvements and Sewer System Improvements necessary to serve the Project as set forth on Exhibit “G” attached hereto, the total amount of the Construction Payment is \$8,400,000.00.

In addition to the foregoing items, Gallatin will, at the Customer’s cost and expense (but subject to the Customer’s review and approval of such cost and expense), provide a connection to the existing water line in Gateway Drive to provide water to the Project for construction use. Such connection shall be provided prior to the date the Customer intends to break ground on the Project as described in a written notice from the Customer delivered to Gallatin.

6. Gallatin shall be under no obligation to undertake any construction of the Water System Improvements and Sewer System Improvements or to furnish any water or sewer service to the Project until the Customer shall have made the Construction Payment. Construction of the anticipated Water System Improvements and Sewer System Improvements for the Project as set forth in Paragraphs 5(A)-(B) shall be completed on or before May 15, 2021, and construction of

the anticipated Water System Improvements and Sewer System Improvements for the Project as set forth in Paragraphs 5(C)-(E) and 5(G)-(K) shall be completed on or before November 1, 2021. Construction of the wastewater gravity sewer as set forth in Paragraph 5(F) above is estimated to be completed in 30 months from payment of the Construction Payment. Said dates are the “Target Completion Dates”.

7. [Intentionally Deleted]

8. The Customer understands and agrees that no third party shall obtain any benefits or rights under this Contract with respect to water or sewer tapping privileges, and no connection shall be made to any customer site until all necessary arrangements have been made in accordance with the Regulations.

9. Gallatin represents and warrants that Gallatin has the full power and authority to enter into this Contract and to perform its obligations hereunder, and this Contract is a valid and binding obligation, enforceable against Gallatin in accordance with its terms. The execution and delivery of this Contract by Gallatin has been validly authorized by all necessary corporate or governmental action and does not conflict with any other contracts entered into by Gallatin.

10. The Customer represents and warrants that as of the date the Customer acquires the Property, if the same occurs, the following will be true and correct: (a) the Customer has the full power and authority to enter into this Contract and to perform its obligations hereunder, (b) this Contract is a valid and binding obligation, enforceable against the Customer in accordance with its terms, (c) entering into this Contract does not conflict with any other contracts entered into by the Customer, and (d) the execution and delivery of this Contract by the Customer has been duly and validly authorized by all necessary corporate action on its part.

11. To ensure that the Water System and the Sewer System will have sufficient capacity to deliver potable water to, and receive wastewater from, the Project as the Project develops, thus ensuring that the Customer may operate and expand the Project as it presently anticipates, Gallatin hereby commits the following water and sewer capacities, as applicable, for use by the Project:

	Construction Water Use		Unit
Avg Day	200,000 (@60PSI or greater)		GPD
First Tier			
	Tier I Water Capacity	Tier I Sewer Capacity	Unit
Avg Day	36,000 (@60PSI or greater)	18,000	GPD
Peak Day	550,000 (@60PSI or greater)	80,000	GPD
Peak Flow	2,500 (@40PSI or greater)	475	GPM
Second Tier			
	Tier II Water Capacity	Tier II Sewer Capacity	Unit
Avg Day	90,000 (@60PSI or greater)	44,000	GPD
Peak Day	1,050,000 (@60PSI or greater)	550,000	GPD
Peak Flow	3,000 (@40PSI or greater)	1,200	GPM

For the avoidance of doubt, the Customer shall not be obligated to use or take any portion of the water and/or sewer capacities set forth above. Nothing contained in this Contract, including without limitation this Paragraph 11, shall be interpreted as obligating or otherwise requiring the Customer to construct any portion of the Project.

The Customer shall give Gallatin at least thirty (30) days' advance written notice of the anticipated commencement of operations at the Project.

12. If the Customer elects to establish redundant and/or backup water sources by (a) drilling water wells on the Property or in connection with the Project for use in a closed heating and cooling system or (b) collecting rainwater on the Property in connection with the Project, the Customer shall have the duty to comply with all Tennessee codes and health regulations which are applicable to use of water from any such wells or systems for the collection of rainwater. Gallatin hereby consents to the establishment of such wells on the Property and the collection of rainwater in accordance with the foregoing sentence, along with the installation, construction and maintenance of infrastructure and equipment related to establishment of redundant and/or backup water supply and sewer resources. The Customer will be required to follow all requirements of Gallatin to ensure that any such wells or water collection systems do not create a cross contamination issue for Gallatin.

13. Subject to the terms and conditions of this Contract, the Customer may, and Gallatin hereby consents to the same, establish infrastructure and equipment related to such establishment of redundant and/or backup sewer resources, wastewater treatment resources, and/or reuse of discharge water, or other advanced water efficiency measures; provided, that the use of any such redundant and/or backup sewer resources shall be in accordance with applicable local, state and federal laws and regulations, as well as the Regulations.

14. (a) Gallatin acknowledges that an essential component of this Contract is to ensure continued water and sewer service to the Project of a quantity and quality that will allow uninterrupted operations of the Project, and further acknowledges that the nature of such operations requires continuous evaporative cooling to protect sensitive equipment required for

essential operations. Gallatin covenants that (i) the daily allocation of water to the Customer shall not be diminished, (ii) Gallatin shall not limit or otherwise reduce or discontinue the flow of water to the Project unless necessary to provide sufficient potable drinking water for the imminent protection of the health and safety of the citizens served by Gallatin, and then only upon reasonable notice to the Customer, and (iii) if Gallatin enacts or amends any water shortage or wastewater curtailment ordinances and such ordinances create classifications of water and wastewater customers the Project shall receive the classification with no lower priority for water usage than any other customer of Gallatin (other than services affecting public health, welfare and safety, including hospitals and booster stations).

(b) Due to the critical, twenty-four (24) hours per day, seven (7) days per week operation of the Project, Gallatin will, at its sole cost and expense (other than the charges for actual services used by the Project), keep and maintain the portions of the Water System and Sewer System that serve the Project and related supporting infrastructure (including, without limitation, the lift station and other improvements to be constructed as provided herein) in good working condition and repair. Notwithstanding anything to the contrary set forth herein, Gallatin shall within twenty-four (24) hours of Gallatin's learning of any Service Interruption (defined below) identify the cause of such Service Interruption and provide written notice of the same to the Customer. A "Service Interruption" shall mean (A) with respect to the Water System, a failure of the Water System to supply to the Project the volume of water reserved under the Water Capacity Guarantee for any period of time or (B) with respect to the Sewer System, the failure of the Sewer System to maintain the capacity reserved by the Sewer Capacity Guarantee for any period of time.

15. Gallatin shall give written notice to the Customer of any facts or circumstances, including any system upgrades or renovations that could result in a reduction in the volume of the

Permitted Intake or the volume or significant change the limits on the quality of Permitted Discharge during the term of this Contract within thirty (30) days of learning of such facts or circumstances or that a reduction in service might result therefrom. Gallatin shall within thirty (30) days of issuance of any new or renewed permits for the Permitted Intake or Permitted Discharge provide a copy of such permit to the Customer.

Gallatin and the Customer agree that the number of gallons discharged into the Sewer System shall be determined by sewer metering and not based on intake. Gallatin agrees that the Customer shall not be charged any application fees, connection fees or systems development fees in connection with receiving service from the Water System and/or the Sewer System, and any requirements of the Regulations to the contrary are hereby waived.

16. Gallatin will comply with all appropriate laws and regulations in connection with setting the appropriate water rate and the appropriate sewer rate for the Customer. Gallatin will not discriminate against the Customer in connection with the setting of rates, fees, or other charges, and Gallatin agrees to charge the Customer a rate that is no higher than the rate charged similarly situated customers of Gallatin.

17. Notwithstanding any provision hereof, the Customer shall at all times have the right to terminate this Contract and require Gallatin to cease the installation and construction of the Water Service Improvements and the Sewer Service Improvements upon ninety (90) days written notice. Upon such termination, Gallatin shall return any unexpended portion of the Construction Payment, less (i) the reasonable costs necessary to wind down any work in progress and to make safe and secure all areas where the Improvements (as defined in Paragraph 19) were being constructed but are incomplete, and (ii) the amounts necessary to pay any amounts due and payable to Gallatin's contractor as of the date of such termination.

18. In the event of a default of this Contract, the non-defaulting party shall provide written notice of the default to the defaulting party and shall specify a period of not less than fifteen (15) days in which the defaulting party shall have a right to cure the default; provided, however, such cure period may be extended if: (a) a default cannot reasonably be cured within the cure period provided in such notice, (b) the curing party notifies the non-defaulting party of such fact by no later than the end of the cure period provided in the notice, (c) the curing party has theretofore been diligent in pursuing the cure and (d) the curing party in such extension notice covenants to (and thereafter actually does) diligently pursue the cure to completion. In the event the defaulting party fails to cure the default, the non-defaulting party may either (i) terminate this Contract and seek damages from the defaulting party or (ii) enforce this Contract by the remedy of damages or specific performance or both.

19. (a) Gallatin shall, and shall cause Gallatin's contractors to, construct the Water System Improvements and the Sewer System Improvements (collectively, the "Improvements"): (i) in accordance with plans and specifications and other Construction Documents approved by the Customer; (ii) in such a manner as to maintain harmonious labor relations and as not to interfere with or delay any work on the Project to be performed by the Customer or the Customer's contractors; and (iii) in such a manner that the Customer and the Customer's contractors shall have reasonable vehicular and pedestrian access to the Property via public rights of way or any easements of record at all times. For purposes of this Contract, the term "Construction Documents" shall mean (A) all construction contracts for any portion of the Improvements, together with any and all supplements, general conditions and addenda thereto, (B) all plans and specifications for the Improvements, including without limitation, design, engineering and development agreements, preliminary and final drawings, shop drawings, working drawings and

models, together with any and all supplements, general conditions and addenda thereto, and (C) any change orders or other written documents that amend, modify or change any documents described in the preceding clauses (A) or (B). All Construction Documents shall be subject to the Customer's prior written consent, which shall not be unreasonably withheld. All contractors and subcontractors performing any work on the Improvements shall be reasonably acceptable to the Customer. Gallatin shall, and shall cause Gallatin's contractors to, act in a commercially reasonable manner and endeavor in good faith to ensure the timely progression of construction of the Improvements. Gallatin shall deliver to the Customer regular updates (not less than biweekly or more often upon request of the Customer) regarding the progress of and schedule for completion of the Improvements.

(b) The Customer shall have the right to retain, at the Customer's expense, a civil engineer (the "Construction Monitor") to (i) review and advise the Customer with respect to all Construction Documents and other matters related to the design, construction, operation and use of the Improvements, (ii) to confirm the adequacy of the budgeted construction costs set forth in Paragraph 5 hereof, and (iii) to monitor the progress of the development and construction of the Improvements. Gallatin acknowledges that (A) the Construction Monitor has been retained by the Customer to act as a consultant, and only as a consultant, to the Customer in connection with the construction of the Improvements, (B) the Construction Monitor shall in no event have any power or authority to make any decision or to give any approval or consent or to do any other thing which is binding upon the Customer, and any such purported decision, approval, consent or act by the Construction Monitor on behalf of the Customer shall be void and of no force or effect, (C) the Customer reserves the right to make any and all decisions required to be made by the Customer under this Contract, and without in any instance being bound or limited in any manner whatsoever

by any opinion expressed or not expressed by the Construction Monitor to the Customer or any other person with respect thereto, (D) the Customer is entitled to the right but not the obligation to rely conclusively on the reports of the Construction Monitor with respect to any matter relating to the construction of the Improvements, and (E) the Customer reserves the right in its sole and absolute discretion to replace the Construction Monitor with another inspector or monitor at any time and without prior notice to or approval by Gallatin. The Construction Monitor shall be granted access at all times to any construction site of the Improvements and to any Construction Documents at such site.

(c) Notwithstanding anything to the contrary contained herein, if construction of any portion of the Improvements is delayed such that the Customer reasonably determines that the completion of the Improvements could be delayed beyond any Target Completion Date, then the Customer may, in its sole discretion, immediately direct Gallatin to take any additional measures (“Extraordinary Measures”) available to Gallatin under any Construction Documents, in which case Gallatin shall undertake such Extraordinary Measures at no cost to the Customer. Extraordinary Measures may include ordering Gallatin Representatives to take corrective measures necessary to expedite the progress of the work, including (i) working additional shifts or overtime, (ii) supplying additional manpower, equipment and facilities and (iii) taking similar measures. Gallatin shall ensure that it has the right to take Extraordinary Measures (including, at least, those described in the preceding sentence) under any Construction Documents. Extraordinary Measures shall continue until the Customer determines that the Improvements are likely to be completed by the Target Completion Date. Gallatin shall cooperate with the Customer in good faith to cause the commencement, progress and completion of the Improvements by the Target Completion Dates.

(d) Notwithstanding anything to the contrary contained herein, if construction of any portion of the Improvements is not being completed in compliance with the terms of this Contract (a “Triggering Event”), then the Customer may, in its sole discretion, immediately upon notice to Gallatin thereof, enter into possession of the Improvements that are the subject of such Triggering Event (the “Subject Infrastructure”) and the real property upon which the Subject Infrastructure is located (collectively with the Subject Infrastructure, the “Subject Property”) and construct, or cause the Customer’s contractors to construct, the Subject Infrastructure. Upon receipt of such notice, Gallatin shall take all steps reasonably necessary to permit the Customer and the Customer’s contractors to: (i) access the Subject Property; and (ii) fully assume all of Gallatin’s rights to property and lands, rights under the Construction Documents and other rights in connection with the construction and completion of the Subject Infrastructure. Gallatin shall (x) ensure that it has the unrestricted right under the Construction Documents to assign the Construction Documents to the Customer, (y) reasonably cooperate with the Customer to transition the construction of the Subject Improvements to the Customer and (z) pay to the Customer the unexpended balance of the Construction Payment. Within a reasonable period of time following the completion of the Subject Infrastructure, the Customer shall transfer to Gallatin the Subject Property for regular operation and maintenance in accordance with this Contract, subject to the inspection and approval by Gallatin, in its reasonable judgment, of the Subject Infrastructure.

20. This Contract may be amended, modified, or supplemented only by the mutual written consent of Gallatin and the Customer, or their successors in interest or assigns.

21. The invalidity or unenforceability of any provision hereof shall not affect the validity or enforceability of the remaining provisions.

22. This Contract contains the entire agreement between the parties regarding the supply of water service and sewer service by Gallatin to the Project. All prior or contemporaneous oral or written drafts of this Contract or other understandings with respect to the subject matter herein between the parties are merged into this Contract. It is the parties' intention to encourage, promote, and aid the Project so that the opportunities and positive community impacts of the Project are fully realized by Gallatin, its citizens, and the Customer.

23. This Contract may be executed in any number of counterparts, each of which when so executed and delivered (by electric means or otherwise) shall be deemed an original, and it shall not be necessary in making proof of this Contract to produce or account for more than one such fully executed counterpart.

24. This Contract is governed by and shall be construed in accordance with the laws of the State of Tennessee.

25. All notices or other communications required or permitted to be served hereunder shall be deemed served in accordance with this Contract if the notice is: (a) delivered by personal delivery; (b) mailed in a sealed wrapper and deposited in the United States mail, certified mail, return receipt requested, postage prepaid (with delivery conclusively presumed to occur on the third (3rd) business day following such deposit absent evidence of actual failure of delivery) or (c) deposited with a national overnight courier service for next day delivery that retains receipts of its deliveries, properly addressed (with delivery conclusively presumed to occur on the next business day following such deposit absent evidence of actual failure of deliver), as follows:

City: _____

Customer: Woolhawk LLC
c/o Waller Lansden Dortch & Davis, LLP

511 Union Street, Suite 2700
Nashville, Tennessee 37219
Attention: Robert R. Campbell, Jr.

The parties, by written notice given to the other, may designate any further or different names or addresses to which all notices or other communications shall be sent.

26. The Customer may assign its rights and obligations under this Contract (a) to any affiliate controlling, controlled by or under common control with the Customer (and upon such assignment the assigning entity shall be relieved of its covenants, commitments and obligations hereunder) or (b) to subsequent owners of all or any portion of the Property, provided that no assignment of only a portion of the Property shall relieve the Customer's obligation with respect to the portion of the Property remaining titled in the Customer without the written consent of Gallatin. In the event that the Customer sells the Property in its entirety and assigns its rights and obligations hereunder to its successor in title to the Property, then the Customer shall be relieved of all of its covenants, commitments and obligations hereunder.

27. This Contract does not abrogate any rights established or preserved by any applicable law or by that certain Development Agreement between Gallatin and the Customer dated on or about the date hereof, by any other agreement or contract executed by Gallatin and the Customer in connection with the Project, or that have vested or may vest pursuant to common law or otherwise.

28. The parties agree that each party and its counsel have reviewed and revised this Contract and that any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in the interpretation of this Contract or any amendments or exhibits hereto.

29. The Customer shall have sixty (60) days from the date of delivery of this Contract to the Customer to execute this Contract. After that date the offer to provide water and sewer service under the conditions set forth herein shall be withdrawn.

30. If the Customer acquires any additional property within the municipal limits of Gallatin (or agreed between the parties to be annexed into same) and within a one-half (1/2)-mile radius of the Property (as same is then constituted), such additional property shall be deemed a part of the "Property".

31. This Contract shall run with the Property and any portion thereof as it may be subdivided or recombined. The Customer may record a memorandum of this Contract setting forth the existence of this Contract with the office of the Register of Deeds for Sumner County, Tennessee.

32. GALLATIN AND THE CUSTOMER EACH HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ANY RIGHT TO TRIAL BY JURY OF ANY CLAIM, DEMAND, ACTION, OR CAUSE OF ACTION (I) ARISING UNDER THIS CONTRACT OR (II) IN ANY WAY CONNECTED WITH OR RELATED OR INCIDENTAL TO THIS CONTRACT OR ANY OF THE TRANSACTIONS RELATED HERETO. GALLATIN AND CUSTOMER EACH AGREE AND CONSENT THAT ANY SUCH CLAIM, DEMAND, ACTION, OR CAUSE OF ACTION SHALL BE DECIDED BY COURT TRIAL WITHOUT A JURY AND THAT EITHER OF THEM MAY FILE A COPY OF THIS AGREEMENT WITH ANY COURT AS EVIDENCE OF SUCH WAIVER.
